

March 3, 2006

Mr. Scott Hassett, Secretary
Wisconsin Department of Natural Resources
P.O. Box 7921
Madison, WI 53707

Subject: **Renewal of Operation Permit #113014220-P01
For Madison-Kipp Corporation**

Dear Secretary Hassett:

On May 10, 2006, Air Pollution Operation Permit #113014220-P01 issued to Madison-Kipp Corporation will expire. We are enclosing petitions from Atwood Avenue neighbors, friends and Clean Air Madison asking that the DNR complete its review of Kipp's application for renewal as soon as possible.

Approval of a new operation permit will require that DNR verify that Kipp can comply with air quality standards. As shown during the recent contested case hearing over Permit #03-POY-328, we expect that an accurate dispersion modeling analysis will demonstrate that Kipp has been violating air quality standards. This analysis should use the DNR's recently approved AERMOD dispersion model and correct the modeling errors presented during the contest case hearing. We request that the DNR begin processing the Kipp application for renewal as soon as possible to assure that Kipp makes the improvements necessary to protect air quality standards.

Thank you for considering our comments. We would appreciate if DNR staff let us know when they will begin processing the permit application.

Sincerely,

Clean Air Madison

Vicky Hestad, Director
vicky@cleanairmadison.org

Enclosure

cc: Senator Miller
Representative Parisi
Alder Olson
Mayor Cieslewicz

DNR Secretary Scott Hassett,

On May 10, 2006, air pollution control operation permit #113014220-P01 issued to the Madison-Kipp Corporation will expire. Atwood Avenue neighbors, friends and Clean Air Madison ask that the DNR complete its review of Kipp's application for renewal as soon as possible. To verify Kipp's compliance with air quality standards, please use the DNR's recently approved AERMOD dispersion model and correct the modeling errors presented during the recent contested case hearing for Permit #03-POY-328. As shown during the contested case hearing, we expect that an accurate modeling analysis will require Kipp to make improvements to end its violations of air quality standards. Please contact Clean Air Madison when the DNR begins processing the application.
